

THE HF REPORT FOR MAY 22 -

The Earth is exiting yet another solar wind stream. Things are getting quieter on the bands with a KP Index of 2 - meaning quiet - today.

[CLICK FOR CURRENT PROPAGATION](#)

COMING UP -

Short report tonight as we have the big dance coming up and everyone else has run for cover.

The CW part of the bands will be busy this weekend as the 48 hour CQ World Wide WPX Contest hits the air. Exchange, if you want to wade into the melee is reception report and serial number. www.cqwpw.com

And the South African Radio League has their Digital Contest ... if you can hear them in the middle of all the CW working. Exchange is also reception report and serial number.

www.sarl.org.za

For a special event station to work, Ham Nation 300 will be on the air from Wednesday through June 1st. Look for W0H from Petaluma, California. hamnation300@gmail.com

Looking for some DX but don't want to wade into the CQ World Wide mess for the easy CW pickings there? How about Guadeloupe on the air as FG/DL2AAZ. So far, it's all been 20 meters, phone. Spotting: <http://www.dxwatch.com/dxsd1.php?f=0&t=dx&c=FG/DL2AAZ>

THAT'S THE HF REPORT, I'M KE5TGZ
